

Kgabo Kwenaite

Full-stack Web and Mobile App Developer

069 653 2031

kronikwenaite@gmail.com

Gauteng, Tembisa, 1632

Objective

Passionate junior full-stack developer with a strong foundation in the MERN stack, eager to build scalable and user-friendly applications. I thrive on solving real-world problems through code, with a keen interest in both software and hardware. Looking for an opportunity to contribute to innovative projects while continuously learning and growing as a developer.

Software Stack

- Node.js
- Express
- JavaScript
- Delphi
- Visual Basic
- JSON
- Redux
- SQLite3
- MongoDB
- Firebase
- Git & GitHub
- Payment Gateways
- Vergel Deployment
- Office365

Front-End

- ReactJS
- React Native
- Html
- CSS and Tailwind
- Figma Design

Experience

Intensive training program at MLab Southern Africa called Code Tribe, gained hands-on experience in full-stack development with a focus on the MERN stack. Engaged in real-world projects, optimizing web applications for performance, scalability, and user experience. Collaborated with a team to design and implement dynamic solutions, integrating APIs, managing databases, and refining UI/UX interactions. This experience honed my technical expertise, problem-solving skills, and ability to work in a fast-paced development environment, positioning me as a capable and adaptable developer.
